Gouldings improved Early Delivery Deal.

Jim Norton says;

"It's all about how to buy your year's supply of fertilisers now-and save yourself money at the same time!"

What this improved Deal means:

It's simple. It means you can buy your year's supply of Gouldings Hi-Unit C.C.F.'s now and save money. The earlier you buy, the more you save. The monthly Early Delivery allowances show it clearly wise to buy now.

September
save 36/- a ton

October
save 29/- a ton

November
save 22/- a ton

Over the year, savings can be very worthwhile:

On a 200-acre farm, if you spread Hi-Unit C.C.F. at 3 cwt. an acre, your overall saving will be around £75—if you buy now. While if your farm is smaller, say 50 acres, you save up to £18 by buying now. Whatever the size of farm—buy now and you will make a worthwhile saving.

Why Gouldings are offering you this improved Early Delivery Deal

Gouldings factory is manufacturing thousands of tons of Hi-Unit fertilisers every week. At such a rate their stores will be filled to capacity in a few months. They want to stop fertiliser piling up and causing a big storage problem—and they've got to sell it as fast as they can. Hence their improved Early Delivery deal, hence they save precious space—and you save money!

Gouldings Hi-Unit CCF's are protected against the weather

You can buy Goulding's Hi-Unit C.C.F. now and spread it next Spring. You can store it in an open shed or leave it out in all weathers with little more than a simple cover.

Buy now—get credit if you want it

If it doesn't suit your farm budgeting to deal in ready cash, credit facilities can easily be arranged through the Agricultural Credit Corporation. Their special Fertiliser Loan Scheme can provide you with a loan at 5% interest, to be repaid after 12 months.

For full details about this credit scheme write or phone the Agricultural Credit Corporation, Harcourt Street, Dublin 2.

So you see—the earlier you buy the more you save. See your Goulding supplier right away and order your supply now.
